117TH CONGRESS
1ST SESSION

H. R. _____

To amend title 38, United States Code, to direct the Secretary of Veterans Affairs to maintain demographic information regarding veterans and publish such information on a website of the Department of Veterans Affairs.

IN THE HOUSE OF REPRESENTATIVES

Ms. BROWNLEY introduced the following bill; which was referred to the Committee on _____

A BILL

To amend title 38, United States Code, to direct the Secretary of Veterans Affairs to maintain demographic information regarding veterans and publish such information on a website of the Department of Veterans Affairs.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Every Veteran Counts
5 Act of 2021”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) The Department of Veterans Affairs is re-
4 sponsible for providing a variety of benefits and
5 services to more than 19,000,000 living veterans.

6 (2) Pursuant to section 527 of title 38, United
7 States Code, the Secretary of Veterans Affairs has
8 conducted the National Survey of Veterans to assess
9 the needs and sentiments of a statistically valid sam-
10 ple of all veterans.

11 (3) The Secretary has conducted this National
12 Survey of Veterans in the late 1970s, 1987, 1993,
13 2001, and 2010.

14 (4) The last survey conducted in 2010 included
15 veterans and other beneficiary groups, such as mem-
16 bers of the Armed Forces serving on active duty,
17 members of the reserve components of the Armed
18 Forces, military spouses, and surviving spouses of
19 such veterans and members.

20 (5) The 2010 survey included information on
21 demographics, awareness and utilization of benefits,
22 health status, military service, and employment.

23 (6) These surveys provide valuable information
24 on the veteran population to the Secretary, Con-
25 gress, Federal, State, and local governments, aca-

1 demic institutions, and various non-governmental or-
2 ganizations that serve veterans.

3 (7) This information is used to inform policy-
4 making efforts and to ensure the needs of the ever-
5 changing veteran population are met.

6 (8) However, since 2010, the statutory frame-
7 work for data collection has substantially evolved,
8 notably with the Foundations for Evidence-based
9 Policymaking Act (Public Law 115–435), the Data
10 Act (Public Law 113–139), and the Geospatial Data
11 Act (subtitle F of title VII of Public Law 115–254),
12 known collectively as the “Evidence Act”, building
13 on previously enacted laws.

14 (9) Further, the Department, through the Na-
15 tional Center for Veterans Analysis and Statistics,
16 has leveraged the vast amount of data generated
17 within the Department and collected by other Fed-
18 eral partners to improve population-based descrip-
19 tive, statistical, and predictive analytic products to
20 support the Secretary and in evidence-based policy-
21 making, facilitate innovative and collaborative re-
22 search, and empower modern business intelligence
23 applications.

24 (10) The Department has been a consistent
25 leader in the Federal Open Data program and offers

1 a platform for scaling access to useful data and in-
2 sight to external stakeholders.

3 (11) Notwithstanding these recent advances,
4 opportunities exist to strengthen the capability of
5 the Department to develop and disseminate action-
6 able insights into the veteran population through—

7 (A) developing enterprise-focused manage-
8 ment and improvements in the quality of ad-
9 ministrative data collected by the Department
10 through its delivery of benefits and services;

11 (B) increased access to data collected by
12 other Federal entities through more flexible and
13 efficient information sharing policies;

14 (C) increased use of publicly available and
15 commercially generated data; and

16 (D) maturing data management of the De-
17 partment.

18 (12) In line with the Evidence Act, it is incum-
19 bent upon the Secretary to regularly engage with
20 key stakeholders, including Congress, veterans serv-
21 ice organizations, advocacy groups, and open govern-
22 ment groups to—

23 (A) enhance the open data program of the
24 Department; and

1 (B) improve development and dissemina-
2 tion of relevant data assets and analytic prod-
3 ucts to provide more current, accurate, and use-
4 ful insights on veterans and their families.

5 (13) It is necessary for the Department to col-
6 lect, collate, and analyze all available data on vet-
7 eran demographics, and to share this data with Con-
8 gress and other stakeholders on an ongoing basis, in
9 an easily digestible format, to direct outreach and
10 align policy with the needs of the changing veteran
11 population.

12 **SEC. 3. DEMOGRAPHIC DATA OF VETERANS: COLLECTION;**
13 **RETENTION; PUBLICATION.**

14 (a) IN GENERAL.—Subchapter II of chapter 5 of title
15 38, United States Code, is amended by inserting after sec-
